cordially invite you to

## **Nuclear risk-reduction, disarmament and the UN Summit of the Future: a parliamentary - civil society dialogue**

Friday, September 8. 2:30-4:00pm  
House of Lords, Committee Room 2A, London

[Registration required](#)

The United Nations will hold a [Summit of the Future](#) in September 2024 to enhance multilateral cooperation on critical challenges such as peace and the Sustainable Development Goals, and to build better governance for the future.

A number of initiatives are being proposed to the UN Summit and other relevant forums to reduce the risk of a nuclear war, advance the goal of nuclear weapons abolition and shift nuclear weapons budgets and investments to support the SDGs.

This parliamentary – civil society dialogue will include short updates on parliamentary actions and civil society initiatives being advanced by the co-sponsoring organizations, followed by discussion between participating parliamentarians and civil society representatives.
